Shlome:

We ended up having a baby boy early! At 37 weeks...just 3 days after our windows were completed! Phewww! June 4 at 4:40 am...

I am writing to thank your company for such a professional window installation!

We are so pleased with the quality of our product! We just love the windows and the way from start to finish you all completed the job! The installers did what they said they were going to and were there on time and were most professional.

The area where the windows were being installed was cleaned down to every particle of dust etc!

We have been recommending your company and the product to all of our neighbors and friends!

It is so nice to support a Michigan based business, but most important to support a company with integrity, reliability and with complete professionalism!

Thank you again!  
The Bendons  
Plymouth MI
